Ting Leased Networks Progress²

Town	Potential SAs	SAs Completed ¹	% Completed
Westminster	6,541	6,541	100%
Fullerton	52,500	4,294	8%
Solana Beach	7,900	4,938	63%
Encinitas	25,900	2,432	9%
Colorado Springs	222,480	0	0%
Total	315,321	18,205	6%

SA = Serviceable Address

1. Defined as premises to which Ting infrastructure or Ting's partner infrastructure has the capability to provide a customer connection in a service area.
2. On leased networks, Ting may not be the sole Internet service provider (ISP), or may have a head start before other providers or services. As a result, we do not expect long-term subscriber penetration to be as high as on our owned networks, where we are the sole ISP.
